Fibre comprises a core sheath type composite short fibre  
comprising of olefinic polymer compsn. contg. 0.1-5 wt.% an  
essential oil as core part and polyester as sheath part. (A) an  
olefine polymer consisting of substantially alpha-olefinc and  
having no polar gp. is of 98-50 wt.%. (B) an modified olefinc  
polymer copolymerised 3-30 wt.% of at least one of unsatd.  
carboxylic acid, unsatd. alcohol and ester, acid anhydride or  
amide is of 2-50 wt.%.

Pref. the essential oil is that of a Japanese cypress,  
peppermint, eucalyptus, camphor etc. The polymer consists of core  
part consisting of 89-50 wt.%, pref. 98-70 wt.% of (A) and 2-50  
wt.%, pref. 2-30 wt.% of (B). Polymerising monomer contg. in (B)  
is, e.g., acrylic acid methacrylic acid, maleic acid, fumaric  
acid and lower alkyl ester or amide thereof, maleic anhydride,  
vinyl acetate etc.

USE/ADVANTAGE - The core sheath type solid composite short  
fibre having fragrance is useful for wadding of a Futon, pillow,  
cushion, stuffed toy animal, or nonwoven fabric, clothings,  
bedding, interior, upholstery, household articles and the  
like. Fibre can be imparted with perfume effect such as a forest  
bath effect in a long period stably. (Dwg.0/0)
